

MacYou — Data Processing Agreement (DPA) v1

Placeholder execution copy. The authoritative DPA terms are published in HTML at macyou.co/legal/dpa. This PDF exists so the cross-references in §6 of that HTML version resolve to a real file instead of a 404 during PSP / enterprise DD review. Final executable annexes (I/II/III) are being prepared by Macyou LLC and will replace this placeholder before any execution by a customer.

Annex I — List of Parties

Data exporter: the Customer entered into the Macyou Master Services Agreement (controller).
Data importer: Macyou LLC, registered in Georgia, entity ID 445839503 (processor).
Contact for both parties: see Imprint.

Annex II — Description of the Transfer

Categories of data subjects, categories of personal data, processing operations, frequency, retention, recipients, and onward transfers are covered in the corresponding sections of the published Privacy Notice (macyou.co/legal/privacy) and DPA §3 (Processing Details). This annex will be populated with case-specific values when a Customer executes the DPA.

Annex III — Technical and Organisational Measures

TOMs are described in DPA §7 (Security Measures) and §8 (Breach Notification) of the published HTML version. AES-256 at rest, TLS 1.3 in transit, RBAC, audit logging, 72-hour breach notification, 30-day sub-processor change notice. The signed Annex III will mirror these TOMs verbatim with version stamps.

This placeholder is not signed and not legally binding. Macyou LLC will provide the final executable DPA and populated Annexes I/II/III on request to legal@macyou.co.
